All trainings take place online via Microsoft® Teams.

[1] Basic knowledge in using plusmeta is a prerequisite for the *Superuser* and *Superuser+* training. This knowledge can be acquired in the *User* training, in the Crash course *Basics*, or it can be acquired via the documentation in the plusmeta user portal.

[2] For Enterprise customers only.

[3] The Superuser training provides more extensive knowledge about the selection and use of AI methods.

[4] Functionality only available for Enterprise customers in their respective environment.
